

## Week #5 craft - Collage

*(Instructions also found in July program bags, but no specific materials for this project are included in the July bags.)*

Using scraps of paper, create a fairy tale collage. Paper such as magazines, newspaper, construction paper, tissue paper, or any other scrap paper is great for collages. You can cut or tear the paper for different effects. Glue the pieces down onto a piece of paper or cardboard to create a design or picture of your choice. If you need inspiration, pick a fairy tale and create a picture that represents it. Have a different idea? Great! Create whatever kind of collage you want. Paper is a great material to start with, but feel free to add more materials if you would like! Buttons, yarn, twigs, leaves, Popsicle sticks....so many options!

Don't forget to "complete" this activity on Beanstack!
