

WORK SESSION MEMORANDUM

TO: Mayor and City Commission
FROM: Amy Leon, City Manager / City Attorney Ross DenHerder
RE: Medical Cannabis Ordinance, Personnel Policies Associated with Medical Cannabis
DATE: May 20, 2021

Attached you will find three documents associated with the work our Medical Cannabis Team has been working on.

The first document is Ordinance #1052. This is our medical cannabis licensing ordinance. Following our last work session staff has made a number of adjustments we will review with you. Likewise, staff also chose not to make one of the changes the City Commission suggested (specifically setting dispensary hours via Commission resolution) at our last meeting following further discussion among our team. We would like to talk through this logic with you, and let you reconsider and provide direction regarding how we approached the hours of operation.

This ordinance is on the agenda for first reading this evening and scheduled for second reading on June 14, 2021.

Also attached is resolution pertaining to the fees associated with licensing. Resolution #21-47 sets forth a \$1,500.00 non-refundable upfront application fee and a \$3,000.00 annual renewal fee.

This is planned to be placed on your agenda for consideration on June 14, 2021. Tonight, staff would like you to let us know if you would like to make changes to this resolution or to the fees established within.

Lastly, is our first draft of the changes to our drug policy within our Personnel Manual in preparation for medical marijuana. The language we are currently considering sets the following general parameters.

- Possessing medical marijuana or being under the influence of medical marijuana while working for the City of Yankton is prohibited.
- Ingestion of medical marijuana on the job or in City facilities is prohibited.
- Use of medical marijuana by medical marijuana card-holding employees while off-duty is permissible, however, the employee risks being subjected to random drug screening and potentially being impacted if there is reasonable suspicion that the employee is under the influence.
- Medical marijuana use by persons that hold positions deemed as “safety sensitive” such as public safety officials, CDL holders, or individuals who hold positions that require a high level of cognitive function (civil engineers/drafters, building officials, finance staff, etc.) is prohibited regardless of card-holder status.

- Mandatory and discretionary drug testing and training to identify “reasonable suspicion” for employees under the influence of drugs or alcohol.
- Identifying employee and employer responsibilities relating to legal and illegal drug use and intoxication and whether/when to involve law enforcement.

We will provide you with an overview of the policy and discuss our reasoning with you regarding the parameters of the policy. The direction we need from you this evening is if we are on the right track with our language or if the Commission believes it should be entirely prohibited all together from any City employee at any time (i.e. a zero tolerance policy).

An Ordinance establishing licensing regulations for Medical Cannabis Dispensary businesses. Be it ordained that:

YANKTON PROPOSED UPDATED DRUG AND ALCOHOL POLICY

901 City's Commitment to Drug and Alcohol-Free Workplace

- A. The City has a strong commitment to its employees to provide a safe, healthy and productive work environment and to promote high standards of employee health. Consistent with the spirit and intent of this objective, the City will act to eliminate any substance abuse which could impair an employee's ability to safely and effectively perform a job and which increases the potential for accidents, absenteeism, substandard performance, and tends to undermine public confidence in the City's work force.
- B. The City's goals are to establish and maintain a work environment that is free from the effects of alcohol and drug abuse and to maintain the reputation and integrity of the City by preventing unacceptable behavior by its employees that discredits the City and its employees.
- C. While the City has no intention of unreasonably intruding into the private lives of its employees, the City does expect employees to report for work in a condition to perform their duties, make the work environment safe for other employees, and represent a proper image to the citizens. It is clear that employee off-the-job, as well as on-the-job, involvement with drugs and alcohol can have an impact on the City's goals.
- D. Any restriction upon any employee under these policies shall also apply to a volunteer serving the City during any period the volunteer is upon City property or providing service for the City.

902 Drug and Alcohol Abuse

- A. The unlawful manufacture, distribution, dispensing, possession or use of controlled drugs or substances or the use of alcohol while on duty, on or off property owned or leased by the City is proper cause for disciplinary action.
- B. Any illegal controlled drug or substance possessed or ingested while on duty by employees will be turned over to the appropriate criminal justice agencies and may result in criminal prosecution. This does not apply to public safety officers who are in possession of an illegal controlled drug or substance while acting in the line of duty.
- C. It is not permitted for an employee to be under the influence of controlled or prescription drugs or substances or alcohol on the job, except that the legal use of controlled or prescription drugs or substances prescribed by a licensed physician is not prohibited (excepting marijuana or any substance containing a THC Metabolite, which is always prohibited on the job), but employees in safety-sensitive positions or positions where side effects of the prescribed medication or substance could affect performance and safety on the job are required to make such use known to their Department Head. Employees in positions designated as safety-sensitive are never permitted to have THC Metabolite in their system at any time on- or off-duty.
- D. The illegal use, sale, and possession of controlled substances or prescription drugs while off duty and off municipal premises which results in a criminal conviction is unacceptable. Off-duty, alcohol-related criminal convictions are also unacceptable. They may affect the job performance and the confidence of the public in the City's ability to meet its responsibilities. Such off-the-job conduct may be proper cause for disciplinary action.

- E. It is not permitted for an employee to intentionally ingest, inhale, or otherwise take into the body any substance other than alcoholic beverages for the purpose of being intoxicated, unless such substance is prescribed by a licensed physician (excepting marijuana or any substance containing a THC Metabolite, which is always prohibited on the job).

903 Testing for Drugs or Alcohol

A. Discretionary Substance Testing:

The City may require drug and alcohol testing in the following instances:

1. Pre-Employment – as a condition of hiring
2. Random – periodically throughout employment
3. Post-Accident or Injury – following a workplace accident or injury that causes personal injury or property damage
4. Reasonable Suspicion – when cause exists to believe someone has violated this drug-free policy or is under the influence of drugs or alcohol during working hours
5. When Prescribed by Law – such as Department of Transportation (DOT) requirements for individuals with a Commercial Driver's License (CDL).

B. Mandatory Substance Testing:

Any employee whose order, action or failure to act is determined to be, or cannot be ruled out as, a causative factor in the events leading up to or causing an incident or accident shall be tested for alcohol and drugs when the following incidents occur on duty unless a supervisor, Department Head, or the City Manager determines that the employee's actions were not a causative or contributing factor:

1. An employee shoots a person;
2. An employee accidentally discharges a firearm;
3. An employee is involved in an incident in which a human fatality occurs;
4. An employee whose performance could have contributed to an incident or accident in which a person is injured and requires immediate treatment away from the scene of the incident or accident, or a motor vehicle or equipment is damaged to the extent that it must be towed from the scene or is rendered inoperable and requires more than simple repairs. Such damage does not include tire disablement without other damage.

C. Circumstances which constitute a basis for determining reasonable suspicion may include, but are not limited to:

1. Abnormal or erratic behavior that is so unusual that it warrants summoning an immediate supervisor, Department Head or other individual for assistance
2. Information provided by a reliable and credible source with personal knowledge
3. Direct observation of drug or alcohol use
4. Presence of the physical symptoms of drug or alcohol use (i.e. glossy or blood-shot eyes, alcohol odor on breath, slurred speech, poor coordination and/or reflexes)

5. Possession of substances in violation of the City's drug and alcohol policy.
- D. The employee, when testing is required, may be asked to submit to urine and/or breath alcohol testing by qualified medical personnel at the City's expense. Prior to testing, the proper authority shall secure a signed release from the employee to have the clinic/medical provider release medical information to the City.
- E. An employee who refuses to consent to a required drug and/or alcohol test, or who refuses to sign an authorization releasing test results to the City, will be subject to disciplinary action, up to and including termination. A positive result from a drug and/or alcohol test will result in disciplinary action up to and including termination.
- F. When testing is required because of reasonable suspicion the proper authority is required to detail in writing the specific facts, symptoms, or observations that led to the reasonable suspicion. All other City employees, including supervisors, are encouraged to attend training on alcohol and substance abuse.

- I. Designation of Safety-Sensitive Positions:

Many positions in the City hold heavy responsibility for promoting and preserving public safety. Employee and citizen safety often depend on the care and skill of city employees. The City designates these classifications as safety-sensitive where functions require higher sensitivity for safety of employees or the public or a higher level of cognitive function to properly perform. For safety-sensitive positions, random drug and alcohol testing is an integral part of maintaining a safe and healthy work environment. Random testing promotes the safety of emergency response teams, a high level of service to citizens, and the public's confidence. Such testing promotes the credibility of police officers as witnesses in illegal substance hearings, reduces the potential for corruption, and promotes the safe and accurate use of firearms, safe emergency response, and emergency vehicle operation. Employees in positions designated as safety-sensitive are never permitted to have THC Metabolite in their system at any time on- or off-duty.

The Human Resources Department consults on an ongoing basis with City departments to identify positions that may be classified as safety sensitive. The list of these positions is maintained in an Administrative Memorandum issued and updated as needed at least annually

by the City Manager. Positions and essential job functions will be reviewed on a case-by-case basis to determine whether the position is safety-sensitive. Some of the criteria that may be considered in making this determination include, but are not limited to, the following:

1. The employee is required to possess a valid commercial driver's license (CDL), to operate a commercial motor vehicle;
2. The employee is required to operate an emergency vehicle, or to operate potentially dangerous equipment or machinery;
3. The employee exercises law enforcement authority or is required or permitted to carry a firearm while on duty;
4. The employee provides emergency medical services;
5. The employee participates in or handles the financial resources of the City;
6. The employee is responsible for the care or safekeeping of minors; or
7. The employee's actions or inaction has the potential to cause serious injury or death to a citizen or a fellow employee.
